BLUTUNE DAB/Bluetooth Sound Systems

£159.95

DESCRIPTION

The New BluTune new range of DAB/Bluetooth Sound Systems will blow your streaming minds. Stream your music from iPhones and smartphones and lap up the sound quality. The BluTune has superior sound quality thanks to its 2.1 speaker system. It also offers a whole host of features including USB socket for iPhone/ Smartphone charging, DAB/DAB+ and FM stereo sound system and so much more.....Bluetooth is a way of exchanging data wirelessly over short distances, and is an attempt to do away with your computer's jungle of wiring. Using a special radio frequency to transmit data, it creates a short range network. It is very secure and can connect up to eight devices (items of electronic equipment) at the same time. Bluetooth is particularly convenient in certain situations. For more information on Bluetooth click here. Bluetooth audio streaming from iPhone or Smartphone 2.1 speaker system to bring out the best from your music USB socket for iPhone or Smartphone charging aptX® codec for optimum Bluetooth audio quality DAB/DAB+/FM wavebands 20 station presets FM RDS station name display Multi-function remote control High contrast display Display dimmer Wake to radio or buzzer Aux in for iPod/MP3 playback Size(mm) 340(w) x 155(h) x 173(d) Weight 2.8kg
