

## **Icom BP-252 spare Li-ion battery pack, 7.4V 980mAh, for IC-M33.**

**£57.95**

### **DESCRIPTION**

The BP-252 Spare Li-Ion Battery Pack 7.4V 980mAh is designed for use with the IC-M33 radio. It serves as a reliable power source for extended operation of the device. Users can expect a capacity of 980mAh, providing sufficient power for prolonged communication needs in various settings. It is important to note that if you are purchasing the BP-252 as a replacement for the BP-224 battery, you will need to have chargers BC-162 or BC-173 to ensure compatibility. These chargers are specifically designed to work with the BP-252 battery pack. Using the correct charger is essential for the proper functioning and longevity of the battery pack, ensuring optimal performance when in use. With the BP-252 Spare Li-Ion Battery Pack 7.4V 980mAh, users of the IC-M33 radio can enjoy a reliable power source that supports their communication needs. By pairing this battery pack with the appropriate chargers BC-162 or BC-173, users can ensure seamless compatibility and efficient charging, enabling uninterrupted communication whenever the need arises.
