## **Buddipole mini shockcord whip**

**£54.95**

### **DESCRIPTION**

The Mini Series Shock Cord Adjustable Whip Antennas build on the success of our standard shock-cord whips that have been in field use for over 8 years. The new Mini Series utilizes the same tubing diameters as our lightweight series shock cord whips and includes an adjustable stinger for fine tuning the antenna. This provides more versatility for use with any vertical or dipole configuration. Each antenna ships with a protective cordura bag. Model 5 section Length: 13" collapsed 72" extended Weight: 7 ozs Model 7 section Length: 13" collapsed 97" extended Weight: 9 ozs Model 9 section Length: 13" collapsed 122" extended Weight: 11 ozs
