

## **Diamond K-512 roof rail mounting bracket 3-axis adjustable**

**£39.95**

### **DESCRIPTION**

The Diamond K-512 Roof Rail Mounting Bracket is a versatile and adjustable solution for mounting various devices on rooftops. With its 3-axis adjustability, it allows for precise positioning and alignment. The tilt angle is also adjustable, providing flexibility for different mounting requirements. The bracket accepts mast diameters ranging from 15mm to 34mm, accommodating a wide range of mast sizes. It is designed to fit rooftops with railing heights less than 32mm and widths up to 150mm. Additionally, the bracket can be used with square masts with side lengths between 15mm and 26mm. With its robust construction and adjustable features, the Diamond K-512 Roof Rail Mounting Bracket offers a reliable and customizable solution for rooftop installations.
