AL-800HXCE Ameritron 1.5kW HF Linear Amplifier **£4449.95**

DESCRIPTION

The AL-800HXCE with two 3CX800A7, delivers 1.5kW PEP on all bands 1.8 to 30MHz. As with the other kilowatt amplifiers it is fitted with current protection which stops damage from inrush current, has air cooling and vernier reduction drives for tuning and matching. With dual illuminated cross-needle meters and compact desk size makes this an attractive amplifier in the range.

- * 1.8 - 30MHz (inc WARC) * Output: 1.5kW PEP (1kW CW)
- * Input: 50 Ohms 70W (typ) 100W (max) * Built-in 230V AC supply
- * Inrush Current Protector * Dynamic ALC
- * Dual illuminated cross needle meters * Air cooled
- * Pi/PI-L output network * Valves: 2x 3CX800A7
- * Voltage: 2,300V * PTT: Keys amp when grounded
- * Size: 420 x 369 x 216mm * Weight: 23kg
