DESCRIPTION

MFJ-1536 6m/2m/70cm Base Antenna 2.5m long SO-239

Best Performance.

MFJ's Pulsar VHF/UHF Base/Repeater Antennas give you the world's best quality and performance.

PulsePEAK Technology.

MFJ's exclusive PulsePEAK technology provides a super low angle of radiation directly at the horizon. This gives MFJ Pulsar antennas the maximum possible gain for longest range performance.

Wide band, High gain performance.

MFJ Pulsar antennas feature wide band performance and high gain on all bands for superior repeater and base station operation.

You'll transmit a powerful signal and receive weak, distant stations clearly.
