TPKA Kent Twin Paddle Brass Morse Key £139.96

DESCRIPTION

TPKA (formerly KTPA) Kent Twin Paddle Brass Morse Key Assembled

Ideal for those who prefer to use an electronic keyer with the resultant reduction in fatigue. The heavy metal base ensures that this key will not wander across the desk when used! Two bearing races gives this key a 'frictionless' feel with tension and travel adjusters on each paddle. Smooth plastic finger grips and brass construction make this a lovely instrument. The unit can be used as a normal electronic or iambic keyer. An unterminated cable is ready wired to the unit. Also available in kit form.

* Normal or Iambic * Brass * Heavy base* Size 100 x 105 x 40mm * Weight 1.1kg
