DESCRIPTION

The RadarBox 3d is on limited offer, The closest you can be to real world aviation without leaving your chair thanks to next generation Radar decoding. By decoding ADS-B (Automatic Dependent Surveillance Broadcast) radar signals, you will be able to see on your computer what real Air Traffic Controllers see on their screens in Real-Time. Flight number, aircraft type, altitude, heading, speed are all updated each second.

The Radar Box 3D adds Google Earth as a map overlay and in addition, the 3D picture library will display the selected aircraft. You will see the image of the aircraft flying above the earth's surface. This opens up a completely and exciting display. Simply the best in the world. Zoom down and see the airport runway, or zoom out and see the aircraft fly over towns, sea and mountains. Never before has such detail and excitement been available.
