£249.95

DESCRIPTION

CRONUS BKI-300-2 BLUETOOTH MOTOR CYCLE INTERCOM X 2 HEADSETS

Cronus BKI-300-2 is a bluetooth system for helmets, enabling you to talk with pillion passenger or other bikers, and provide communication and entertainment while riding a motorcycle. Cronus BKI-300 works and communicates with cellular phones, GPS navigators, and MP3 players equipped with bluetooth technology.

- Bike to bike communication (max. range 800m in ideal conditions)
- Rider to passenger intercom communication
- Multiple connections (up to 3 headsets can be paired)
- Full duplex
- Built in FM radio (Frequency range: 76-108MHz)
- Bluetooth connection to MP3 players by A2DP function with individual volume and music track control
- Bluetooth Hands-free mobile phone connection with voice dial capability
- Audio guide information from bluetooth GPS navigators by A2DP function
- DSP technology wind noise suppression with echo cancellation to ensure crystal voice quality when moving (up to 150km/h)
- AGC for automatic volume adjustment according to ambient noise and driving speed.
