Maha MH-C1090F 10 Bank Smart Fast Charger for PP3 Size Batteries **£69.95**

DESCRIPTION

Maha MH-C1090F 10 Bank Smart Fast Charger for PP3 Size Batteries

World's first 10 bank 9V rapid charger, the MH-C1090F will recharge one to ten 9V batteries in only 2 hours. Built to professional standards, it is fully compatible with all NiMH rechargeable 9V batteries. Works well with the new PowerEx 9.6v 9V batteries (note: shown batteries are not included)

Ten Individual Charging Channels capable of charging up to ten 9V rechargeable batteries at a time providing users with plenty of fully charged batteries.

Will charge 9.6V rechargeable batteries in 2 hours or less.

Allows each battery to be charged to its full potential without risk of overcharging.

Microprocessor automatically switches to trickle charge after batteries are finished charging so that they maintain their charge.

Compatible with 7.2V, 8.4V, and 9.6V Rechargeable 9V Batteries.

Individual LED for each charging channels indicates when batteries are ready to go. No guessing about batteries. Green means ready and Red means charging.

Capable of even reviving older 9V batteries which may no longer be accepting a charge.

Features :

Rapid Charge Current: 70-90mA

Trickle Charge Current: 10mA

Charging Cell Configuration: One to Ten 9V Batteries (7.2V, 8.4V or 9.6V)

Microprocessor: Negative Delta V, Ten Independent channels

Charge Time: 120-160 minutes

Power Supply Voltage: 15V 1000mA
