## Heil PR-22UT

**£119.95**

### DESCRIPTION

The HEIL PR-22 UT microphone is essentially the PR 22, but (like all Heil Utility microphones), saves you money by shipping with just the essentials. The same patent pending diaphragm shock mounting, along with tight cardioid pattern element of the PR 22, makes the PR 22 UT the choice for those who expect the best in a dynamic cardioid microphone.

Heil PR 22 UT has exceptional low noise handling, response and impeccable reproduction of whatever source it takes in. The PR 22 UT is a sleek & elegant, yet rugged, microphone just like the PR 22.

With the PR 22 UT you get a stainless mesh screen, mic stand clip, and black foam acoustical wind screen, in a zipper case.
