Two Way Business Radio  
£169.99**

## DESCRIPTION

XT400 Series radios make it easy to get the work done. Compact yet performance-packed, the XT400 Series provides coverage up to 16 250 m<sup>2</sup>, 13 floors or 9 km line of sight 1 with voice prompts that enable you to programme non-display radios on the go. A carry holster with swivel belt clip lets you rotate the radio to fit comfortably and move freely while picking up a tool or restocking a shelf and the antimicrobial coating helps prevent the growth of mould and germs on the surface of the radio – as you change shifts, pass on the radio confidently.

## KEEP ON TALKING IN TOUGH CONDITIONS

Military Standard 810 C, D, E, F and G plus IP55 may be the standards for other radio manufacturers, but they are the starting point for our XT400 Series. These radios undergo Motorola's unique Accelerated Life Testing (ALT). This rigorous laboratory testing simulates up to 5 years of field use. We design and build the XT400 Series right the first time to minimise costly repairs and downtime.

## MOVE FROM XTNI TO XT400 SERIES SEAMLESSLY

The HTML-based Customer Programming Software is so easy to use, it works with any computer browser. Profiles are interchangeable with the XTNI Series too. You can quickly copy settings between XT400 Series radios or between XTNI and XT400 Series portables with the radio-to-radio cloning cable or through the Multi-Unit Charger. Plus you can reuse your XTNI audio accessories to unleash the power of your XT400 Series radios.

With a Motorola XT460 you can communicate quickly without missing a beat – whether you're coordinating resources at the construction site, managing maintenance technicians in an office complex or monitoring resources on the manufacturing line.

These fully-featured radios combine outstanding quality with excellent affordability to give your operation the competitive edge. With crisp, clear audio throughout the workplace and exceptional durability, XT400 Series radios deliver great performance even with hard use in high noise and harsh conditions.

The XT400 Series come with the right credentials to give business the competitive edge: exceptional quality, affordability and durability to outlast high noise, tough conditions and hard use.
