The iconic 'Revival' DAB radio is back but with a difference! Stylish Retro Chic meets high tech internet radio with the Revival iSTREAM2.

The iSTREAM2 is a nostalgic 1950s style retro radio with DAB/ DAB+ advanced Wi-Fi internet radio features. Wi-Fi internet radio enables you to access thousands of radio stations from around the world, it also means that you can take your favourite stations abroad with you when you travel as long as you have access to a Wi-Fi internet connection. Alternatively you can choose to stream your personal music collection directly from your laptop or use spotify connect*.

Browsing stations is really simple thanks to on-screen radio station listings that are automatically updated and conveniently sorted into country or genre. All you need to get started is a broadband internet connection with a wireless router.

Also, the Media Streaming function allows you to use your internet radio to play music files which are stored on a computer or other storage device on your network.
