**Pop Midi with Bluetooth  
Compact, portable DAB  
and FM digital radio with  
Bluetooth**

**£100.00**

**DESCRIPTION**

with Bluetooth has been engineered and hand tuned by our audio experts in the UK to ensure the best possible sound.

### Compact for portable listening

Pop Midi with Bluetooth's compact size makes it really convenient to listen to your favourite radio show wherever you want, whether that's the kitchen, study or bedroom. With the option to fit a ChargePAK D1 rechargeable battery pack or regular AA alkaline batteries, you can also listen to your favourite radio station in the garden or take it with you on holiday.

### Switch on to digital radio

DAB digital radio brings you high-detail digital-quality sound and lots of stations (many exclusive to digital). As well as more choice, the large clear displays on our DAB digital radios let you find out more about the station you are listening to, including the title of a playing track, the name of the radio show and much more. Digital radios automatically find all your available stations and let you select them by name, and there's also FM for any stations that have not yet gone digital.
