Radioworld R-881 Super Gainer Scanner Antenna 25-1900MHz

£19.96

DESCRIPTION

The Radioworld R-881 Super Gainer is the one to choose for really long distance reception. High quality Upgraded engineering and ergonomic design ensure that it is the natural replacement for those seeking to extend their receiver's range. * 25 - 1900MHz * 41cm long * BNC Connector, If you like the Watson W-881, then you will love this. Ideal for the UBC125 UBC75 or UBC3500 and other BNC & SMA connector scanners alike!, Ham Radio Shops.

This antenna is for "Wide Band" performance and does NOT narrow down to certain bands, This antenna works well for the Air band and more. However for more dedicated air band listeners, try the [Watson W-901, Click here](#) or the [Comet AB-1230H, Click here](#)

Best antenna for uniden scanner | wideband scanner antenna | scanner antenna indoor | mobile scanner antenna | uniden ubc125xlt antenna upgrade | scanner antenna homemade | best discone antenna uk | telescopic scanner antenna | Ham radio shops uk.
