## **Microset CF-800 50 Ohm Dummy Load D.C. TO 1000 MHz**

**£199.96**

### **DESCRIPTION**

50 OHM ANTENNA DUMMY LOAD FREQ. D.C. TO 1000 MHz, Antenna dummy load of very good performance developed for many different applications, for HF - VHF - UHF frequencies band until microwave. Ideal for loading transmitters during the test, power antenna meter. Circulation and hybrid ring as load at constant impedance in wide band. Precision mechanic realization, good temperature dissipation, reliable, strong. Standard colours: black, silver.

Mod. CF800

FREQUENCY: 0-1000 MHz

POWER: 800-1000W

S.W.R.: 1,3 max

PLUG: N female

SIZE (WxDxH): 200x160x230 mm
