ZETAGI B153 MOSFET AMPLIFIER 100W AM/FM, 200W SSB MAX.

£55.00

DESCRIPTION

Zetagi B153 is a high quality linear amplifier with ON/Off and Low/High switch. This MOSFET (Metal Oxide Semiconductor Field Effect Transistor) amplifier offers low signal distortion, high reliability and better performance. This amplifier comes in a smart new anodised colour and also has in-built protection against polarity inversion.

FEATURES

- * Frequency: 26 - 30MHz
- * Modes: AM/FM/SSB
- * Input Power: 0.5 - 5W (AM) / 1- 10W (SSB)
- * Output Power: 100W (AM/FM) / 200W (SSB)
- * Power Supply: 13.8v DC
- * Current Drain: 10A
- * Impedance: 52 ohms
- * Max Input SWR: 1.2:1
- * Connector: 2 x SO239 Sockets
- * Dimensions (mm): 120 (L) x 130 (W) x 45(H)

* Weight: 0.7kg
