Mosley TA 31 JR-N Triband Rotary Dipole £299.95

DESCRIPTION

Band Coverage: 10m, 15m, 20m

Elements: 1

The ORIGINAL compact, lightweight antenna! Like other Mosley designs, the Junior has been imitated by the competition, but never duplicated! The Trap Master series, still the most copied, broadband, multi-band antennae made! Rugged construction and designed for the Amateur with a limited space and a tight budget. As with all Mosley antennae, your elements and boom pieces are all pre-drilled and colour coded, which makes assembly quick and easy. Our hardware is made of the best grade of stainless steel and our tubing is aircraft grade drawn aluminium All Mosley Amateur antennae are backed with a two year warranty against any defects of material or workmanship.
