Buddipole 7m Mastwerks Tripod and Mast System **£699.95**

DESCRIPTION

Buddipole is the sole U.S. distributor for the Mastwerks line of unique rotational tripods and telescopic masts. The flagship RTS 1500 series is designed with a patented rotational tripod head that can be operated manually (hand-crank) or remotely utilizing a small motor and remote control unit. Each system is designed for quick one-person deployment on virtually any terrain. All Mastwerks systems are made in the U.S.A.

The RTS 1500 Series is a first-of-it's-kind product line of lightweight and portable (patent pending) rotational tripods (hand crank comes standard) and quick deploy masts utilizing ultra-rugged nylon-reinforced custom injection molded parts, custom aluminum tubing, and stainless steel hardware.

Weight (complete system): 14.8 lbs (6.5 kilograms)

Length (collapsed): 24 inches (61 cm)

Length (extended): 23 feet (7 meters)
