

Heil hb-1 articulated microphone boom arm - articulated

£74.95

DESCRIPTION

To answer the many requests for an economy microphone boom, we present the Heil HB-1. The HB-1 is an articulated arm that is of very substantial steel channel structure and balanced by four external springs. Capable of supporting microphones up to 2.5 lbs, the HB-1 has a reach of 40". The HB-1 is shipped with a brass-lined 'C' clamp mount that accepts up to a 1.5" thick table. The HB-1 will fit all of the brass lined Heil mounting accessories: DT-1 Flush Mount that mounts through a 1.5" hole in the desktop, FL-2 Flange Mount secures to any flat surface, WM-1 Wall Mount, RS-1 12" Riser Mount, The HB-1 Boom accepts all of the standard 5/8" -27 threaded microphone hardware. The threaded chrome stem can be secured into its needed position by tightening the thumbscrew.
