Icom HM-166 earpiece microphone.

£35.99

DESCRIPTION

The Icom HM-166 Earpiece/Microphone is a versatile accessory for Icom radios. It features a comfortable earpiece for clear audio reception and a convenient microphone for transmitting messages. The HM-166 is compatible with a wide range of Icom radio models, making it a popular choice among professionals in various industries. Users should ensure optimal functionality compatibility with their specific Icom radio model. The optional OPC-1797 adapter may be required for some models, so it is essential to check before ordering to avoid compatibility issues. This adapter allows seamless integration between the HM-166 Earpiece/Microphone and the radio, ensuring reliable communication. Overall, the Icom HM-166 Earpiece/Microphone is a reliable and efficient communication accessory for Icom radio users. Its ergonomic design, clear audio quality, and compatibility with various radio models make it a valuable tool for professionals who depend on clear and effective communication in their daily operations.
