

**Mfj-5812h patch lead with  
rg-213 molded pl-259  
connectors on each end,  
measuring 3.65m.**

**£34.96**

## DESCRIPTION

The MFJ-5812H Patch Lead is a 3.65m (12ft) long cable with moulded PL-259 connectors on each end. It is made of RG-213 coaxial cable, ensuring high-quality signal transmission. Additionally, there is another version of this patch lead available, which features moulded PL-529 connectors on each end. Both versions are 12ft long and provide reliable connectivity for various applications.
