**Palstar hf-auto 1800 watt
automatic hf antenna tuner.
£1,799.95**

DESCRIPTION

Palstar HF-AUTO 1800 Watt Automatic HF Antenna Tuner, The Palstar HF-AUTO 1800 watt automatic antenna tuner covers 160 to 6 Meters with a power rating of up to 1800 watts PEP. Hams have enjoyed the benefits of low-power auto-tuners for years, but now Palstar takes it to the next level and offers auto-tuning with a power rating of 2 Watts to 1800 watts. Like all Palstar products, the HF-AUTO was designed by Hams for Hams carrying on the Palstar tradition of high-quality products designed and made in the USA. Auto-tuners have been around for years, but most use clacking relays and lumped components so that the match is always slightly off. Palstar reinvented the auto-tuner with continuously variable components for a perfect match every time and capped it off with a power rating of 2 Watts to 1800 watts. Output Power: 2 to 1800 Watts, HF Bands: 160m to 6m, Tuning time: 4-6 seconds processor controlled, Display: 4 line large print, Capacitor: large plate variable differential, Roller inductor: ceramic, Outputs: Three (3) SO239 coax connectors, Chassis: .090 ga. aluminium gold iridite coated, Top cover: .090 ga. aluminium iridite coated, Dimensions: 12.5" wide x 6.5" high x 16.5" deep, Shipping weight: 25 lbs, Warranty: One year.
