

## **4:1 current balun 400w**

**£29.95**

### **DESCRIPTION**

The 4:1 Current Balun is a versatile device with key features that make it an excellent choice for a wide range of applications. With a frequency range of 1-30MHz, it is capable of handling a variety of signals. Its power rating of 400 Watts ensures that it can handle high power levels without any issues. The balun has an impedance of 50 ohms, which makes it compatible with a wide range of equipment. It also features an SO259 connection for cable and two brass terminals for wire, providing flexibility in terms of connectivity options. Overall, the 4:1 Current Balun is a reliable and efficient device that offers excellent performance in various scenarios.
