Rm bla600 wide band hf 1.8-55mhz linear amplifier - from 1.8 to 54 mhz key features,specifications output 500w,

£2,349.95

DESCRIPTION

RM BLA600 Wide Band HF 1.8-55MHz Linear Amplifier, The BLA 600 is a wideband compact linear amplifier for the HF bands and 6m, from 1.8 to 54 MHz Key Features/Specifications: Using Freescale MRFE6VP5600 Output 500W. Dual MCU Control Fast PIN Diode RX-TX TX-RX switching enables QSK operation 2x16 LCD Display for Amplifier Status Separate LED displays for power and antenna VSWR Input drive from 1W to a maximum of 40W (TBC) 3 user-configurable Antenna Output connectors Dual large-diameter MCU controlled Multispeed cooling fans for efficient cooling Linear 1200W Quiet PSU 115 - 230 - 240 Vac Weight: 21.5kg.
